

THE BEGINNING OF THE HERA OF RADIOFREQUENCY

# HERA

## CELLULAR COACH

HERA Cellular Coach, the beginning of the new era of radiofrequency. It is the ultimate device for discovering the best tissue appearance. Its way to achieve it is through a **bidirectional and respectful dialogue between technology and organism**. The treatments reach deep layers to promote tissue regeneration and recovery from cellular biostimulation.

HERA Cellular Coach achieves visible, immediate and lasting results. Its cellular language re-educates and trains the organism.

## TECHNOLOGY

HERA Cellular Coach is the only platform that combines **four types of radiofrequency at 448 kHz** and the effectiveness of vacuum therapy. All in a single device to achieve non-invasive, pleasurable and visible results from the first session.

### BENEFITS

INCREASES VASODILATION  
AND OXYGENATION OF TISSUES

STIMULATES  
CELLULAR METABOLISM

IMPROVES TISSUE FUNCTION

INCREASES THE PRODUCTION  
OF COLLAGEN AND ELASTIN

BALANCES THE  
REGENERATIVE PROCESSES

DRAINS AND DETOXIFIES

PROMOTES LIPOLYSIS

DECREASES FIBROSIS

### HEBEGY

VACUMTHERAPY +  
MONOPOLAR RF  
RESISTIVE

# BIOLOGICAL EFFECTS OF RF

**HERA Cellular Coach** activates the blood system providing increased oxygenation to the tissue. It contributes to **cellular regeneration and repair**. The synergy of technologies generates the following summative biological benefits on the treated tissues:

## SUBTHERMIA

Tissue function modulation and detoxification

## TERMIA

Acceleration of cellular metabolism (vascularization, oxygenation, drainage and detox)

## HIPERTERMIA

Acceleration of endogenous regeneration processes (collagen and elastin production)

## APPLICATIONS AND BENEFITS

### ● **FACIAL TREATMENTS:**

- Facial rejuvenation
- Skin regeneration
- Wrinkle reduction
- Increased hydration and luminosity
- Increased elasticity

### ● **BODY TREATMENTS:**

- Localized fat reduction
- Firming treatment for flaccidity
- Treatment for cellulite in all its degrees
- Tired legs

### ● **HAIR TREATMENTS:**

- Provide vitality and shine
- Stop hair loss
- Revitalize damaged hair
- Densify the hair population

# HAND PIECES

1

## HEBEGY hand piece

Combination of vacuum therapy and resistive monopolar radiofrequency. Mobilization, detachment and drainage at its maximum depth.

Ø 30, 55, 75 mm

2

## RESISTIVE MONOPOLAR RF

Indicated for fibrotic and fatty tissue. It allows working the maximum tissue depth.

Ø 40, 60, 80 mm

3

## CAPACITIVE RF

Acts on blood circulation regenerating the skin and activating collagen production. Medium depth.

Ø 20, 40, 60, 80 mm

4

## BIPOLAR RF

Highly effective superficial application in the treatment of flaccidity and stretch marks.

Ø 30, 70 mm

5

## SPECIAL CURVED ELECTRODES

Designed to facilitate the treatment of certain difficult areas such as double chin, knees, elbows, etc. Thanks to its ergonomic and curved shape.

20, 25, 30 mm

They are also excellent for capillary areas. The application of radiofrequency generates vasodilation and oxygenation of the scalp. The improvement of irrigation favors the arrival of nutrients and amino acids necessary for the cells of the hair follicles to multiply and regenerate, thus strengthening the hair and favoring its growth.

## PROTOCOLS

To facilitate the work of the professional and achieve the best results in the shortest possible time, **Hera Cellular Coach** is based on treatment protocols designed according to the area and the aesthetic alteration to be treated.

**FREE PROGRAMME**  
that allows personalising  
the treatment to 100%  
according to the parameters  
established by  
the professional.
